I've got a digital copy of a case combining Axial-Flow 2377 2388 2577 2588 workshop service manual if anyone needs one. I went into the Case IH dealership in Wee Waa, Australia a few years ago asking for a look at theirs and they refused which really crossed me out and I swore that when I finally got hold of one (without playing a ridiculous price) I would share it, so here are the people. If someone requests I will create a download link. That's about 2,000 pages. Thank you and you are welcome, Scott · · can I get a copy too, thanks · I definitely want one. Been looking for a file to show up somewhere and never found one yet. · Would be great for reference. · May I get a copy, I will be very grateful · I would be forever grateful to get a copy of it! · · I wouldn't mind a copy of it either · Discussion Starts · #11 · Nov 1, 2016 Give me a few days to find a place to upload it. Can anyone recommend? It is over 400MB so can not upload to this site. · · Maybe a torrent site would be a good place as they do a lot of movies which are big in size. · · It works great. Thank you very much. I always enjoy reading case manuals because they tell you how things work and great general manuals. The only thing is that it is very slow with my Adobe Acrobat program. Not sure why it is so slow or is it because there are so many pages! It takes a long time to load a page when you view it. · It works great. Thank you very much.
